

Thank you for the oppertunity to voice our opinion in this matter, 90.1 F.M. aswell as 107.9 F.M. has not only gave me encouragement, but my wife also. I am a black man with three kids who listain mostly to r&b and Rap style gospel music, but thay sing along to most of the song's played on air 1. Me and my wife know them all. We have also found that the music and the teaching that comes from these stations are great ice breakers when meeting other Christian believers. Our children even make good friendships by meeting other friends at free concet events and things of like nature, which gives us a peace of mind when thay go out with friends. So please consider us in your decision making. Sincerely The Huxstable Family.
